

# Re-evaluation of some organic chemicals, hydrazine and hydrogen peroxide.

## IARC - Hydrazine

Description: -

-Re-evaluation of some organic chemicals, hydrazine and hydrogen peroxide.

-

IARC monographs on the evaluation of carcinogenic risks to humans -- 71.

IARC monographs on the evaluation of carcinogenic risks to humans / International Agency for Research on Cancer -- 71 Re-evaluation of some organic chemicals, hydrazine and hydrogen peroxide.

Notes: This publication represents the views and expert opinions of an IARC Working Group on the Evaluation of Carcinogenic Risks to Humans, which met in Lyon, 17-24 February 1998.

This edition was published in 1999

Filesize: 24.23 MB

### Alcohol as a Human Carcinogen

Confounding factors in biological monitoring of exposure to organic solvents. Part two re-evaluates 30 compounds for which new epidemiological or experimental carcinogenicity data were available and for which changes in classification were anticipated. Genetic activity of allyl chloride.

### RE

Number 72 July 2007 Alcohol Metabolism: An Update Drinking heavily puts people at risk for many adverse health consequences, including alcoholism, liver damage, and various cancers.

### Hydrazine

HEALTH CONSEQUENCES OF ALCOHOL USE Alcohol metabolism and cancer—Alcohol consumption can contribute to the risk for developing different cancers, including cancers of the upper respiratory tract, liver, colon or rectum, and breast 19.

### Biomonitoring Summary

Environmental Protection Agency, Office of Air and Radiation. The Chemical Breakdown of Alcohol The chemical name for alcohol is ethanol CH<sub>3</sub>CH<sub>2</sub>OH.

### Hydrazine

Role of acetaldehyde in mediating the pharmacological and behavioral effects of alcohol. Ten hairdresser salons were examined for two days, by recording number and type of customers, ventilation and size of salon.

### Biomonitoring Summary

Journal of Occupational and Environmental Medicine, 47, 11—19. More information about external exposure i. Effects of pregnancy and nutritional status on alcohol metabolism.

**Airborne exposure to chemical substances in hairdresser salons**

A group of seven males and seven females given saline served as controls. Annals of Human Genetics 68 Pt.

**Re**

Enzymatic production of acetaldehyde from ethanol in rat brain tissue. The natural history of alcoholic chronic pancreatitis. IARC Working Group on the Evaluation of Carcinogenic Risks to Humans.
