## Flora Europaea (5)

It aims to be simple as well as authoritative, and should enable a reader to name as far as its subspecies any fern, conifer or flowering plant growing wild or widely cultivated.

## Flora Europaea

For the last volumes vol. The are used to indicate the status of the mapped taxa in certain grid cells.

## Flora Europaea: Alismataceae to Orchidaceae (Monocotyledones)

Again, the value of Flora Europaea for plant breeders is mainly indirect but a number of genera whose wild species are of significance in economic crop breeding are covered. It aims to be simple as well as authoritative, and should enable a reader to name as far as its subspecies any fern, conifer or flowering plant growing wild or widely cultivated. Today, the maps cover Lycopodiaceae — Rosaceae , that is 4664 species and subspecies.

## Document

It provides full keys and concise descriptions of families, genera, species and subspecies, together with bibliographic details for accepted species, summaries of geographical distribution, chromosome numbers and habitat information. Ferguson has been appointed as an additional research assistant. Libraries of botanical and biological institutions throughout the world should not be without it.

## Flora Europaea: Alismataceae to Orchidaceae (Monocotyledones)

The text, in English, uses a limited vocabulary, and there are glossaries of technical terms and Latin equivalents. All the distribution maps published in the AFE vols. The Flora Europaea, originally published between 1964 and 1980, explores the synthesis of all the national and regional Floras of Europe.

## Flora Europaea: Alismataceae to Orchidaceae (Monocotyledones)

These include Rubus, where the agamospecies are reduced to some kind of order by clustering around a circle species which is alone keyed and described, and also Prunus, Vicia, Melilotus, Medicago, Trifolium and Lotus. Two Letter Code Geographical Region Al Au with Az Açores Be Bl Islas Baleares Br Great Britain, including , and ; excluding and Bu Co Corse Cr Kriti Creta with , and Cz Czechoslovakia and Da Fa Færøer Fe Fennia , including Ahvenanmaa Ga France Gallia , with the Îles Normandes and ; excluding Corse Ge Germany Gr , excluding those islands included under Kriti supra and those outside Europe as defined for Flora Europaea Hb Ireland Hibernia ; both the Republic of Ireland and Northern Ireland He Helvetia Ho Netherlands Hollandia Hs Spain Hispania with and ; excluding Islas Baleares Hu Is Islandia It Italy, including the ; excluding Sardegna and Sicilia Ju Jugoslavia Lu Portugal Lusitania No Norway Po Poland Rm Rs Territories of the former U. Raino Lampinen assisted them in the vols.
