## Living a Normal Life with Mitral Valve Prolapse

Of course, the next work day won't cut us any slack. We also hear about some members being double jointed or very flexible. Sometimes it depends on what I supplement with but the responses to things also changes so drastically, and sometimes I just get worse for 3-4 days out of the blue, even on the same regimen! N Engl J Med 341 1 : 1-7.

## Living a Normal Life with Mitral Valve Prolapse

Within minutes, my PVCs stopped.

## Factors associated with participation in a mitral valve prolapse support group

It's the same spot that I used for the racing heart.

## Factors associated with participation in a mitral valve prolapse support group

I do, however, recommend safer means of reducing palpitations, such as regular cardiovascular exercise and avoidance of dairy foods get your vitamin D, calcium, and magnesium elsewhere , after a consultation with your cardiologist.

## Alternative Mental Health News, No. 21

It sounds like some sort of autonomic dysfunction- maybe what you really need is a neurologist.
