the Fund as having adapted well to the changing world environment with perhaps the need for some reforms to the International Architecture. He contends on the same issue as Fischer that their private use is extremely limited and that impedes their ability to compete with other forms of international money. As such, the asymmetries imposed on the system are worrisome for all.

Arthur F. Burns Papers

They each refer to considerations that could easily spark political confrontations.

The Hayek Bibliography

These countries' economies represent a large portion of the global economic system but this is not reflected in the IMF's decision making process through the nature of the quota system. After lively discussions, the President of the Bundesbank endorsed the Plan, on condition that the future European Central Bank would be independent.

commentary26

This hearing took place on June 20, 1979. He noted that the technique of the plan should be applicable to prospective member states, irrespective
