The Order of Words in the Ancient Languages Compared with That of the Modern Languages

Lithuanian 5000 years old Lithuanian forms a part of the group of the Indo-European language, which gave birth to various modern languages like German, Italian and English. Oldest inscriptions of the language can be seen in Ogham stones of the 5th and 6th century AD. Even the word car comes from càr in Gaelic! In addition, Arabic is read from right to left, has a unique alphabet and requires you to learn new sounds.

1,000 Most Common Words in Different Languages (with Audio)101 Languages

Compared to German nouns, for example, Czech has 15 times more possibilities! And you may even discover a few cognates, such as geyser from the Icelandic geysir. The original r has also suffered different fates: however, within each language, the same thing happened in both words.

Linguistics 001

The Non-Slavic Languages of the USSR. Likewise, we can surmise that many documents in Ancient Hebrew were lost over time, which means that there must be unattested undocumented words that existed in Ancient Hebrew.

Top 10 Oldest Languages in the World

Maybe learning a new language is on your bucket list. The results are in the table below; the lower the numbers, the closer the translation word order is to the Koine Greek word order. For example, have been described with the rather uncommon VOS word order.

The Order of Words in the Ancient Languages Compared with That of the Modern Languages

It is believed that the use of this language ended when the Mycenaean , but Arcadocypriot Greek, another form of the Greek language, is very similar to the Mycenaean version. Sound changes work to change the actual phonetic form of the word in the different languages, but we can still recognize them as originating from a common source because of the regularities within each language.
