

Technical evaluation report on AGARD specialists meeting on Aerodynamic interference.

AGARD - Technical Evaluation Report On The Agard Specialists Meeting On Failur

Description: -

- Aerodynamic interference. Technical evaluation report on AGARD specialists meeting on Aerodynamic interference.

- AGARD advisory report -- 34 Technical evaluation report on AGARD specialists meeting on Aerodynamic interference.
Notes: The proceedings are published as AGARD conference proceedings No.71, 1971.
This edition was published in 1971

Filesize: 33.75 MB

Investigation of the effects of angle of attack and tail deflection angle on the controlling tail flow field

Dana Report Number: H-469 Performing Organization: NASA Dryden Flight Research Center, Edwards, CA Abstract: Indirect pilot viewing systems for reentry vehicles and SST, discussing overlapping monoculars and panoramic display.

52259309

It will be the aim of the Symposium to report on these accomplishments. Holleman Report Number: NASA-TM-X-59119 Performing Organization: NASA Dryden Flight Research Center, Edwards, CA Abstract: Reentry control requirements during terminal glide, approach, and landing.

Technical Evaluation Report On The Agard Specialists Meeting On Failur

Besides, the effects of angles of attack on the normal force coefficients on the tail are more than deflection angles due to body effects and the corresponding generated vortices.

A simple analytical model to describe the impact of wing on the flowfield over the tail in subsonic flow

An Evaluation of a Rotating Kirchhoff Acoustic Methodology,? In 1995, the AGARD Fluid Dynamics Panel planned what became AGARDograph 336 which was published in 1998 as a sequel to 1966 publication of AGARDograph 109.
