Walking With Shadows

Was disappointed in this one but one kind of bad book out of 25 ain't so bad. Narrelle Harris takes us on a thorough trip across many parts of Melbourne and shows us the cool things we have here NGV, St Kilda Esplanade and the dodgy alleyways of the CBD, ripe for all sorts of dark exploi Loved Lissa and Gary's friendship, reminded me of the intense but finite friendships one is capable of having with other people when in your early 20's. I was introduced to this series by a friend in 2011.

Walking Shadows : A Decker/Lazarus Novel by Faye Kellerman (2019, Mass Market) for sale online

The two shadows were walking side by side and crossed the bridge as normal people except there was no one except the shadows. Lissa is a Melbournian librarian whose best friend, Gary, is a dorky vampire. Despite the life-threatening situations, she continues to care about her job, sister, friends and pet dog.

Walking with Shadows (TV Movie 2006)

Kellerman did a superb job of creating a story which reopens a twenty year old murder. . Like any long running series, there are better books than others.

Walking Shadows (Peter Decker and Rina Lazarus Series #25) by Faye Kellerman, Paperback

Shenanigans ensue when the vampires of Melbourne start being killed in dramatically permanent ways. For the record, I know it may sound a little wild, but there were a lot of hyenas in my neighborhood but I have been told since I was a child that hyenas never attacked human beings, as scavengers they would look for trash from houses to feed on. A slice of life for a downtrodden family.

Admin

There's a church parking g lot at the end of our street and when I turned to walk that way with my pup I saw a black shadow figure, that looked exactly like my boyfriend, walking through the parkibg lot toward me.

Walking Shadows by David Barry, Paperback

So what is an ordinary geek-girl librarian to do when hardcore vampire killers begin knocking off the vampire population of Melbourne? While Gratz and his partner, Kyle Masterson, admitted to the robbery, they swore they left the owners, Glen and Lydia Levine, very much alive. The first and only Faye Kellerman novel which I have bottomed out in.

Walking Shadows: A Novel without Words by Neil Bousfield

Vampires are not my thing at all, but that said, I did enjoy this book. She is plucky, but bossy.

Walking Shadows by Joshua Redman

I really enjoyed the deepening friendship between Lissa and Gary - theirs is a unique relationship in the world of vamp-based stories. Plus Gary is so adorkable that it is brilliant. The dialogue rings true for the characters and scenes and the writing is brilliant! His father, on the other hand, is serving time in prison for robbing and murdering the owners of a local jewelry store.
