They told us we were not to be eaten, but to work, and were soon to go on land, where we should see many of our country people. She chronicles the many accomplishments in America of Chinese immigrants and their descendents: building the infrastructure of their adopted country, fighting racist and exclusionary laws, walking the racial tightrope between black and white, contributing to major scientific and technological advances, expanding the literary canon, and influencing the way we think about racial and ethnic groups.

I prize thy love more than whole Mines of gold, Or all the riches that the East doth hold.

The Ninth Edition includes refreshed and updated coverage of African American history and has been streamlined from 37 to 34 chapters. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader. However, in this reappraisal Teresa Goddu demonstrates that the American Gothic novel, was, in often suprising ways, actively engaged with social, political and cultural concerns of its time. Effective storytelling, colorful anecdotes, and biographical sketches make the narrative absorbing and the material more memorable.
