No change in either country's position regarding the sovereignty of the Falkland Islands was made explicit. The Harrier works around a single powerful engine with four rotatable nozzles, which enable the aircraft to work from anywhere in the world, from aircraft carriers to airfields, to open country with very little room to manoeuvre.

Word of the invasion first reached the UK from Argentine sources. In air-to-air combat, the Harrier pilots only had one trick up their sleeves — a maneuver that could only be performed with vectored thrust.

Hostile Skies (February 1, 2007 edition)

British casualties were 48 killed and 115 wounded. Britain was facing great economic problems at home and expenditures for both new items of military hardware and for expenses in maintenance and operations of equipment already in inventory were being cut drastically.
