Scottish Mountaineering Club

Well the ice was so good I was literally able to throw my picks in and avoid squashing my knuckles; anyone who had straight shafted axes will know exactly what I mean. Since its introduction in 1991, this system has gained widespread acceptance amongst the majority of the winter climbers in Scotland, and almost all new climbs reported are now given two-tier grades. Plus there's been a fair number of winter routes ticked south of the border.

Winter Climbing

You might like ice or you might prefer mixed winter climbing and so we will aim to give you the experience of both of these types of climbing. Synergy even brought the sun out with them to make a perfect day! Photo Tim Miller On December 4, the day after their ascent of on An Teallach, Callum Johnson and Tim Miller visited the Eastern Ramparts of Beinn Eighe and climbed a second new route. All the helmets furniture buckles, clips and adjustment dials need to be glove friendly, and make sure it has the ability to take a head torch.

Scottish Winter Climbing Advice from Alpine Guides

Topo Tim Miller Tim Miller and Jamie Skelton notched up the first new Grade IX of the season when they made the first complete ascent of Metamorphosis on Ben Nevis. Each mountain is within easy reach of Fort William where we live and instruct year-round; take advantage of our local knowledge and allow us to share our extensive experience with you.

Andy Nisbet

Climbers setting out in winter will have the same climbing equipment as summer with the addition of extra gear to place, such as ice screws, as well as two technical ice axes and a pair of crampons that are rated for climbing.

Choosing kit & gear for Scotland winter mountaineering

The video showcases eleven of the best problems from 8A+ - 8B+. Lastly most people know the cascade is very hard for a grade IV many people say its single pitch is harder than many of the grade V crux pitches on the Ben. Tim and Jamie thought the route was unclimbed in winter

when they set off from the valley early on December 7.

Winter Climbing Grades

They were developing new winter climbing routes on the mountain. I was about 30m out with a good belay but no good runners! Grade II those inexperienced or less confident may chose to use 2 axes though they will almost always be climbable with 1 though you may feel the need to swing the axe once in a while. The route starts at an obvious skyline ridge and what follows is a brilliant line up to the col splitting the peaks.

Scottish Winter Kit List

The Arete Pitch can be avoided by a rising traverse, but it is the highlight of the climb; then there's a final exposed crest — a cheval is an acceptable option here! Although the expedition was unsuccessful in its attempt on the north east ridge, it led to an offer of seasonal employment at Glenmore Lodge in both summer 1985 and 1986. M Mark Bannan: I don't think it matters that much. Made of thick, inflexible material and going down to near my knees, it could keep any weather out.

Grades

Central Highlands: The high amounts of snow meant climbing on Ben Nevis was hard work. He gave up work in 1982 to allow him to spend more time climbing, taking short-term jobs to see him through.
