Eurostat — your key to European statistics

Here you can find all , customs procedures and formalities, product requirements for the , for each product — including any special conditions granted under trade agreements. Damage and warranty claims arising from missing or incorrect resources are excluded. You will also find an overview of the different types of publications, tools and support services Eurostat offers, and useful links.

Eurostat — your key to European statistics

The Software is built upon and together with the OECD. How to work with Access2Markets Looking for , customs procedures and formalities, product requirements or statistics for a specific product? It provides detailed information about EU institutions and policies and acts as a gateway to the home pages of a number of EU bodies such as the Parliament, the Commission and its Directorates General and the European Court.

Euro area statistics

Euro-Peristat began in 1999 as part of the EU's Health Monitoring Programme and now has official representation from 31 countries across Europe and a large We developed a list of recommended indicators for perinatal health surveillance and have collected data on these indicators.

Statistics on Income and Living Conditions

Information from Trade Helpdesk All content previously on the Trade Helpdesk is now on Access2Markets. This system's goal is to produce data and analysis on a regular basis for use by national, European and international stakeholders who make decisions about the health and health care of pregnant women and newborns.

CIRCABC

Formerly known as Global market information database GMID.

Access2Markets Welcome to Access2Markets to Trade Helpdesk users

Services include a wide variety of sectors, including transport, telecommunications, professional services, financial services, postal and courier services, retail and distribution, environmental services and tourism.

CIRCABC

Welcome to the Eurostat Institutional Support service, which is especially dedicated to staff members of all EU Institutions and services. On one hand, decision-makers at EU level, in Member States, in local government and in business need statistics to make those decisions. Use the feedback buttons at the bottom of each page to let us know! The accompanying metadata is provided in the following Excel spreadsheet. On downloading, you will need to enable macros to ensure full functionality.
