## Morale & éthique : citations

Second, there is what can best be described as a genuinely idealist strand of Leibniz's thought. As will be shown, central to Leibniz's philosophy was the view that God freely chose the best world from an infinite number of possible worlds and that a person could be said to act freely when the contrary of that action does not imply a contradiction. Problème: comment se distinguent deux mondes possibles? While it is the nature of an individual substance to have a CIC, only a genuine unity can qualify as a substance.

## Œuvres de Gottfried Wilhelm Leibniz

Et il n'y a pas de rupture. Le point est semblable au segment. What was said above concerning the unity and activity of simple substance should suffice to explain Leibniz's reasons for holding such a position.

## Cours: la de Leibniz (notes d'élève)

The latter is not irrelevant, except to the foundation and definition of truth. Il faut relire les principes au regard du principe du meilleur. Analogous problems are thought to result from a conception of absolute time.

## Leibnizian Moral Argument?

The most direct route to happiness, as commonsense testifies, is not through the gratification of every desire that happens to occur to one. Je vois une tâche granuleuse.
