Clapp Basin at the head of Shields Bay on west coast of Graham Island. Table 1 shows turtle activity levels in these areas. Geological Survey USGS is trying to understand the relation between changing landscapes, changing demographics, and a changing climate in the Borderlands while the environmental, economic, and societal issues continue to be intertwined between the two nations.

Two sedges grew in extensive colonies in and along the creek. Box 24591 Tempe, AZ 85285 Editorial Review Board: Dr.

northeastern borderland lake: Topics by Science.gov

These arrived in early 1677, but were greeted with scant enthusiasm, and departed in May leaving behind a garrison of only 100, and a mere handful who had accepted an official offer to become settlers; Reginald Hargreaves, *The Bloodbacks: The British Serviceman in North America*. It was also possible to determine maximum horizontal stress direction for the region. In past centuries sanctuary and forgiveness for offenses were given to all who successfully reached this area.
