. The data was gathered from 243 teachers.

**Volume IV Issue I**

They argue that the archive would improve public education, communication between scientists and the translation of biomedical advances into healthcare. The paper concludes that each might be most appropriate in certain market conditions or for certain clients.

## **Archives**

Stocks are fundamentally less risky than bonds, not only because their returns have been consistently higher than those of bonds over the long run but also because less uncertainty surrounds the long-term return investors can expect on the basis of past history. June 8-10, 2009, Panama City, Panama.
