Tapeworms of Fish

Hunter's Tropical Medicine and Infectious Disease.

The first transcriptomic resource for the flatworm *Triaenophorus nodulosus* (Cestoda: Bothriocephalidea), a common parasite of holarctic freshwater fish

Humans become infected when they eat raw or undercooked freshwater fish that contain fish tapeworm cysts.

Tapeworm, how to treat at infection of your pond fish?

They lodge in the intestines of fish. This means that they need each other to propagate. Links to other sites are provided for information only -- they do not constitute endorsements of those other sites.
