## Else Frenkel

She devised a measurement scale for ethnocentrism and authoritarianism to test hypotheses concerning prejudice in individuals and groups. Satisfaction is guaranteed with every order. After earning her doctorate in psychology under Karl Bühler at the University of Vienna in 1930, she worked as a research assistant to Charlotte Bühler in the Psychological Institute until 1938.

## Else Frenkel (1908

The middle child of three sisters, her father, a banker, encouraged her intellectual development. Instead, in 1939, she became an associate researcher at Berkley's Institute on Child Welfare. May show some signs of use or wear.

Frenkel-Brunswik's contributions to the field of psychology did not die with her, although the recognition that she should of gotten seems to have been buried. This study and the book that came out of it led to the development of the F-scale F is for fascist. Her colleagues in the psychology department at Berkeley voted unanimously for her appointment to full professor in 1957, since nepotism regulations no longer applied, but this gesture in recognition of her achievements came much too late to be of comfort to her.
