## Film on Paper: The Inner Life of Movies (Revised)

His point about being given more space to write reviews on film books, than actual films, is bitterly ironic. Yet he gives credit where it is due, honoring the commendable research in *The Dame in the Kimono*, an examination of the Hays Code. It shows us one of the most touching stories of parent-child relationships.

**Film on Paper: The Inner Life of Movies: Schickel, Richard: 9781566637596: satis.farmjournal.com: Books**

Film on Paper is an outstanding read and well worth the time for anyone who enjoys film, good writing, or both. He holds no truck with the standard, thwarted-genius take on Orson Welles, and he considers John Ford seriously overrated he much prefers Raoul Walsh and Howard Hawks. He reviews plenty of books that earn his praise, and curious readers will find many reading suggestions as well as advice on books and authors that might best be avoided.

## Movie review: 'Genius Within: The Inner Life of Glenn Gould'

His respect for film shines through, and there's much to be learned as well as enjoyed. Schickel is tough, but he never attacks a book to prove how clever he is. This is an excellent book, but it has a bit of sadness too since the author believes that informed film criticism and knowledge of film history are both dying out.

## 18 essential movies that help us understand what all women want

By: Trevor Johnston Posted: Tuesday January 18 2011. Martin Frost retreats to his friends' up-state cottage, and as a story comes upon him, he falls for a beautiful, mysterious woman.

## Indigo

There are some issues that should be raised with a few of the essays. In this he is unlike for example John Simon in his prime or the late movie and cultural critic Dwight Macdonald, both of whom were merciless and personal to boot. Originally published in the Los Angeles Times, Schickel's reviews cover books written between 1989 and 2007.

**Genius Within: The Inner Life of Glenn Gould 2011, directed by Michèle Hozer and Peter Peter**

Like the movie director according to the auteur theory of criticism, whose personal concerns pervade the films he makes, Schickel injects his well-considered priorities and prejudices into these entertainingly opinionated appraisals.

**18 essential movies that help us understand what all women want**

For sensible judgment, entertaining and original insight, and sheer anecdotal delight, Richard Schickel is the Dr Johnson of our time, with one exception--Richard's judgments are considerably more reliable than the good doctor's, more kindly and no less witty or trenchant for all that.

**Nonfiction Book Review: Film on Paper: The Inner Life of Movies by Richard Schickel, Author . Ivan R. Dee \$18.95 (292p) ISBN 978**

Those nasty adolescents sometimes show up throwing tantrums, hastily changing decisions, refusing to marry or take responsibilities.
