Chapter 1 Introduction to School Facilities Maintenance Planning, Planning Guide for Maintaining School Facilities

You should consider entering the district with an inquiring mind, seeking to understand the context, history, values, and beliefs that have created the systems and results you see. History Comes Alive: In addition to learning about architecture and civic responsibilities, existing school buildings also help students connect with their own community's history.

Oregon Health Authority : State agencies issue COVID

Functional area audits — Audits are provided as needed to give the new superintendent a quality snapshot of instructional, communications, human resources and other operational areas.

AASA

It begins by stating that the proceeds from the sale of district property must be used for capital outlay purposes or maintenance of district property, and that the proceeds from the lease with an option to purchase district property may be deposited in a restricted fund used for routine repair of district facilities.

Strategies for Protecting K

On the other hand, negligent facilities maintenance planning can cause real problems. Audience for This Planning Guide The primary audience of this Planning Guide is staff at the local school district level, where most facilities maintenance is planned, managed, and carried out. Also included are suggestions for achieving LEED energy credits and supplemental strategies for achieving advanced energy savings beyond 30 percent.
