Passing The Book: Cultures of Reading in the Winthrop Family, 1580

I treated it with scrupulous regard to his memory, which I shall ever sacredly cherish, hoping for a blissful reunion in a better world. Of the merits of my own additions others may judge. Frustrated with the mortality rate and gruesomeness of the radical mastectomy, Keynes experimented by inserting 50 milligrams of radium in a patient's tumour.

MARC view: The apologie and treatise of Ambroise Paré, containing the voyages made into divers places with many of his writings upon surgery

On the third day of the illness, she was moved to another building, to prevent the spread of infection in the household. His diagrams became known as the first accurate set of diagrams to be produced.

Staff View: The apologie and treatise of Ambroise Paré,

On the contrary, it is more natural to suppose that this Gospel relic belongs to John, or, at all events, to the Johannean tradition in Ephesus.

Paré's Law: The Second Law of Toxicology

In the Morning such an abundance of blood flowed forth from the tumor being opened, that he therewith astonished, implores all possible ayde, and bids that I should be called to stay this his great bleeding, and he repented that he had not followed my directions. Hippocrates was probably trained at the asklepieion of Kos, and took lessons from the Thracian physician Herodicus of Selymbria.

Full text of treatise concerning the principles of human

Shelves the shoulder band which is tied before and behinde to the girdle of the Trusse, B. For several decades surrounding 1800, European geologists were engaged in lively debates about which methodological principles they ought to employ to interpret observations and to formulate larger theories of earth history. The symbolical communion and the real communion, or the symbolical and real ban.

Free Flashcards about Religion of History'

In an environment where promise was often tinged with uncertainty, it was essential to read closely and well. Though he often identified his sources, he did not treat them as authorities of distinct kinds. Wherefore the Chirurgion, called to restore the Gut which is fallen downe, shall place the child, either on a table, or in a bed, so that his head shall be low, but his buttocks, and thighes higher; then shall he force with his hands by htle and Htle, and gently, the Gut into its proper place; and shall foment the Groine with the astringent fomentation, described in the falling downe of the wombe.

A. Paré, The apologie and treatise... containing the voyages made into divers places, with many of his writings upon surgery

As a Christian and an Apostle, he represents in the Church an apostolate of the heart and spirit of Jesus, in which he attracts even little catechumens with the patriarchal charms of kindliness; while he remains, even for the awakened and believing, veiled in a mysterious and ghostlike glimmer, in which he is often rather revered and praised, than heard through and studied out. Yet if by the quicke and too hasty taking forth of such like bodies there bee feare of crueU paine or great effusion of bloud, it will bee farre better to commit the whole worke to nature than to exasperate the Wound by too violent hastening.
