Road Safety Audits

These Guidelines therefore update previous editions with fresh advice, for example, on matters such as qualifications for Road Safety Auditors and on legal issues within Road Safety Audit.

Guidelines for: the safety audit of highways

A Stage 3 Road Safety Audit is visited during daylight hours and during the hours of darkness, so that hazards particular to night operation can be identified. It provides information on the planning, design, construction, maintenance and operation of land-based transport systems and infrastructure. By focusing on our customers first, we deliver data and expertise that enable innovative and successful decision-making.
