Call 211 for Essential Community Services

After school programs and adult enrichment programs are also available.

Child Care Services Association — Ensuring affordable, asccessible, high

It will be important and helpful for you to provide them as much detailed information about your concerns as you can. Virtual visits are available to established patients.

COVID

The comprehensive guide covers expressions of trauma in early childhood settings across the domains of development, and ways to support young children who have experienced trauma in classroom settings.

Search for a Family Building Professional in Your Area

When families, educators, healthcare providers and support agencies work together, we can maximize the potential of each child to meaningfully participate in schools, work and community life.

State and County Specific Resources

Child Care Resource and Referral agencies often conduct research on child care needs and trends within their community so that they can answer those questions. Take the to help you identify if your child is at risk for emotional, attention or behavior difficulties and if you should seek an evaluation with a mental health professional. The organization is also instrumental in pushing for educational improvements, providing a network for educators and to disseminate ideas and research.

Resource Guide: Child Development Resources for Families and Providers

CLOSE What to Do if You Notice Symptoms If you see symptoms or have concerns about your child or teen, you may want to schedule an appointment for an evaluation with a licensed psychiatrist or psychologist. Eligible agencies can take the courses for FREE and can receive PQAS and CEU credentialling. Early identification and treatment can help your teen get the help and information they need.

Life Stages and School Resources

These videos feature administrators and practitioners from child and family-serving agencies, including early childhood education providers.

CHADD Resource Directory

You will find a brief description of services and contact information for each resource.
