Coloboma: MedlinePlus Genetics

Well, in spite of myself, I feel that I am growing a savage again, since I have set my foot on the island! Signor della Rebbia, I am willing to believe you have had nothing to do with this detestable plot. As soon as the black horse came within reach, she caught him firmly by the mane, and split his ear open with her knife. A coloboma can affect one or both eyes.

Colomba di Pasqua

This monument of public utility was constructed at the common expense of the della Rebbia and Barricini families. Symptoms of Coloboma Persons with an isolated coloboma may have normal vision and no symptoms, or they may have mild to severe vision impairment. But will that accomplish the vengeance? Her great objection to Italy, on the whole, was its lack of local colour and character.

Colomba Tema Pasqua

Immediately remove dove from baking sheet and cool on a rack. Orso cooled his blood by thinking that he would depict his state of mind to Miss Nevil, and that such a picture could not fail to interest that fair lady deeply.

The Colomba and Other Italian Easter Traditions

The magistrate, in fact, noticed that one sheet was missing from the quire on which the name was written, but he remarked also that leaves were likewise missing from other quires in the same note-book, and certain witnesses testified that the colonel had a habit of tearing out pages when he wanted to light a cigar—therefore nothing was more probable than that, by an oversight, he had burned the address he had copied. She turned pale, her voice grew hoarse, the line she had begun to declaim died on her lips. And, as you already know, they are full of preservatives.

Colomba di Pasqua

To his enemies, a tempestuous sea. They have discharged me, too! After this burned maquis came a number of cultivated fields, inclosed, according to the fashion of that country, with breast-high walls, built of dry stones. He had left Pietranera to pursue his studies at Pisa when he was only fifteen.

The Colomba and Other Italian Easter Traditions

Signor Barricini stammered a few words that nobody could hear, and his sons stared steadily at the ceiling rafters.
