Naruto: Strongest Kekkei Genkai Ranked

Only one instance of its use featured a shinobi gathering storm clouds to produce their electricity, providing credence to the name. This is one of the few kekkei genkai that has different forms depending on the user of the ability. In the case of Mei, she can actually use the ability to create an acid-like vapor that dissolves what it comes in contact with.

Teki wa Kaizoku: Neko

It is a kekkei genkai that originated from the Otsutsuki Clan. If you two are a destined couple, then please just get together even without facing those trials.
