Addressing Social

Three questions are examined: 1 Are organizational climate and job satisfaction operationally the same? First, when leadership is correctly enacted and supported in smart working contexts, it contributes to developing a new mindset in terms of thinking, attitudes, and behaviors. Folkecology, cultural epidemiology, and the spirit of the commons: a garden experiment in the Maya lowlands, 19912001. However, if a framework of related, relevant concepts already exists, then the approach used here permits a far more rapid identification of the a priori framework; it also permits more rapid and structured coding and synthesis of data from the review's included studies than grounded-theory techniques.
