Student Projects

Goal 4: Retrieve, analyze, interpret, and critique scientific literature in pharmacology and toxicology. There is no formal application process.

Internal Medicine (Core) Residency Program

Visit or the to explore possibilities in global health, research, and more. Applications are received at any time for starting dates of approximately August 1.

Molecular Pharmacology and Toxicology Program

Prerequisites The program pre-requires the following courses or equivalent courses with a minimum of 3 credits for each. Trainees may enter as Canadian Medical Graduates, International Medical Graduates, and Internationally Funded Trainees: once in the program, all trainees are valued for their unique perspectives, and held to the same high standards. The program is research-intensive with a focus on training in the scientific method.

Pharmacology and Toxicology (MS) < University of Louisville

This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. We embrace diversity and inclusiveness for all trainees and support patient-centred care.

Student Projects

Over 100 students graduated from the program between 1976 and 2015. Sehingga lama waktunya bagi orang beriman adalah sekadar masa

istirahat siang di dunia, dan Allah Yang Paling Cepat Perhitungan Hisabnya. Statistical information about immediate post-degree work or advanced degree attainment for alumni in the last decade may be found on the.

Health Center Program New Access Points (HRSA)

The programs prepare students for careers in independent research or related careers in academia, industry or government.
