Cape - Darcus Howe and Britain's Black Power movement / Our Migration Story

More specifically, the Internal Audit is required to examine the processes that are intended to deliver the missions of the BCB one of which is "to ensure a solid and efficient financial system". Audit thus examines the functions related to financial stability, regulation, licensing activities, on-site and off-site supervision, conduct and banking resolution.	
Like Supervisors, the Internal Auditing annual plan has also a risk based approach which ensures that all available processes of supervision are performed every five years.	
The internal audit also considers governance issues as well as internal control and risk management and, when necessary, requires improvements on the governance of the supervisory function.	
For example, the 2017 audit plan included one engagement on on-site supervision, and two in off-site supervision. The work in off-site supervision focused on the methodology used in the top-down stress tests.	
There are external examinations also. The Federal Court of Accounts (FCA) performed an audit (Actioes 395 - 2015) focused in the governance of the supervision function.	
Assessment of Principle 9	Compliant
Comments	As the FSB has noted "Brazil stands out among its FSB peers for the pioneering work it has carried out on trade reporting and its use in systemic risk monitoring" (April 2017). This monitoring has been used in support of financial stability at system level and also at individual institution level. The BCB has very clearly expended considerable efforts in mobilizing an extremely wide range of primary transaction data—credit register and trade repositories for example—to support the activity of the on and off-site supervisors in the area of contagion risk most particularly. The BCB has a well thought out supervisory strategy to enable it to target, management and monitor its supervisory processes. Supervisory planning is a proactive process, taking into account a range of sources, from the strategic needs of an institution to wider macro concerns, identified through COMAG or COMAGC. The supervisory manual provides a clear guide to support both quantitative and qualitative tasks.
Principle 10	Supervisory reporting. The supervisor collects, reviews and analyses prudential reports and statistical returns from banks on both a solo and a consolidated basis, and

It is, therefore, no surprise that collective agreements have not made much headway in the country so far. Most of the collective agreements have been at the plant level, though in important textile centres like Bombay and Ahmedabad, industry level agreements have been common. The representatives sent by the parties to appear before him are generally officers who do not have the power to take decisions or make commitments; they merely carry the suggestions to the concerned authorities on either side.
