Landau

Most cases of LKS do not have a known cause. .

PRODUCTS

The prognosis is improved when the onset of the disorder is after age 6 and when speech therapy is started early. The seizures typically appear

between the ages of 4 and 10 and disappear before adulthood around the age of 15. Teaching them sign language is a helpful means of communication and if the child was able to read and write before the onset of LKS, that is extremely helpful too.
