But is this about to change? Peer pressure, competition, boredom, and bullies are no longer the part of an education process. It has always been one of our biggest priorities, to listen to what employers in our region require and to respond by shaping our curriculum to meet those needs. Finally, bootcamps offer short-term training programs already — unlike colleges where you need to attend four-years to receive a credential — which integrates well with the ideal length for lifelong learning courses.

## **'Further education needs a 2020 vision'**

One group of delegates called for more research on the apprenticeship premium — the increase in wages or promotion that being an apprentice brought.

This was less possible for many of the small businesses that dominated the British economy, Isles said, so it was up to colleges to reach out. We record our own exclusive FE News podcasts, work in conjunction with sector partners such as FAB to create weekly podcasts and daily education podcasts, through to working with sector leaders creating exclusive education news podcasts. They matter and deserve to be taken seriously and explored.

## **Coding Bootcamps Are the Future of Further Education**

This means that they will encounter less problems in evolving to the demands of employers, and will be able to quickly transition to the needs of new workers.

## **The Future of Education 2050: 7 Things That Will Change**

The face-to-face undergraduate community experience should help students develop those skills, which are applicable throughout their lives and careers.
