**Global Environmental Change and International Relations : Rowlands, Ian H., Greene, Malory: satis.farmjournal.com.au: Books**

These include realism and neorealism, historical materialism, neoliberal institutionalism and regime theory, and epistemic community and cognitive approaches.

## Global Environmental Politics

Climate change and depletion of the ozone layer are two examples of dramatic changes in the Earth's natural environment which raise new questions in international relations.

**Global Environmental Change and International Relations : Rowlands, Ian H., Greene, Malory: satis.farmjournal.com.au: Books**

DOI: Brings together leading scholars of global environmental politics; divided into four sections to evaluate the scholarship on global environmental politics: states and cooperation, global governance, international political economy of the environment, and knowledge and ethics.

## Global Environmental Change and International Relations

Edited by Walter Carlsnaes, Thomas Risse-Kappen, and Beth A.

**Global Environmental Change and International Relations : Rowlands, Ian H., Greene, Malory: satis.farmjournal.com.au: Books**

Global environmental problems frequently involve substantial scientific complexity and ambiguity.

## International Relations and Global Environmental Change

The very long timeframes of both the consequences of environmental problems as well as the efforts to address them create a number of governance challenges given the much shorter political timeframes of politicians and diplomats.

**Global Environmental Change and International Relations : Rowlands, Ian H., Greene, Malory: [satis.farmjournal.com.au](http://satis.farmjournal.com.au): Books**

New York: Oxford University Press, 2017.

**International Relations and Global Climate Change**

New Earth Politics: Essays from the Anthropocene. The nine chapters in this book explore some of the theoretical and policy problems that are posed by global environmental change. However, much of the literature prior to the 1980s related specifically to resource extraction and development issues.
