[PDF] One Overview of Sauropod Phylogeny and Evolution

A second uncrushed Megaloolithus egg egg 2 from the same clutch is still at the site.

DinoMorph: Parametric modeling of skeletal structures

Funding: Field research was supported by National Geographic Society Committee for Research and Exploration grant 8127-06 JAW ; collections work was supported by an Natural Sciences and Engineering Research Council discovery grant JJH. As in basal alethinophidian snakes such as *Xenopeltis*, the supratemporal has a wide articular surface for the quadrate on its lateral margin and a very short, free-ending posterior margin that does not extend posteriorly beyond the otic capsule. In a finite element analysis of the skull of *Diplodocus*, Young et al.

An early trend towards gigantism in Triassic sauropodomorph dinosaurs

Institutional Abbreviation NHMUK Natural History Museum, London, UK. The skull of *Sanajeh* rests atop a coil of the vertebral column, which wraps around three sides of a crushed egg and. Fossil snake preserved within a sauropod dinosaur nesting ground.

Tutorial 7: the sauropod family tree

The largest exemplars of these two genera are similar in body mass e.

Camarasauridae

Anais da Academia Brasileira de Ciências, 83 1 , 221-233.
