Five top challenges affecting healthcare leaders in the future

West Virginia has decided to develop its own exchange as a way of maintaining control and better serving its residents, said Cline. Article Information Corresponding Author: Barack Obama, JD, The White House, 1600 Pennsylvania Ave NW, Washington, DC 20500. The was the biggest issue facing the health and care system before the emergence of Covid-19.

Why Health Equity Matters in an Era of Health Care Transformation

When that opportunity presents itself, it will be essential to be ready with grounded policies that are more than patches and can serve as pathways toward a high-performing health system.

The road to renewal: five priorities for health and care

Not only will consumers have access to detailed information about their own health, they will own their health data and play a central role in making decisions about their health and well-being. They are doing so not just because it is the right thing to do, but because the financial incentives are increasingly aligning, the legal requirements are there, and their bottom lines benefit.

The Future of U.S. Health Care: Replace or Revise the Affordable Care Act?

The push for data exchange and greater demand from consumers to have access to detailed information about their own health, own their health data, and play a central role in making decisions about their health and well-being may propel businesses into an unrecognizable future.

Exploring the Next Phase of Health Care Reform: How Health Care Leaders Can Position Their Organizations for Success

REFERENCES AAMC Association of American Medical Colleges. We end on a note of caution for those planning cultural reform: efforts

targeted at culture change may not always generate the anticipated organizational outcomes.

The Health Care Delivery System: A Blueprint for Reform

Calleson DC, Seifer SD, Maurana C. Contrary to popular belief, recent immigrants accounted for a relatively small proportion of the uninsured less than one in five.
