## Lessons for Africa from China's Growth

But excessive nationalism could breed more public frustration and create more pressure on the government if its policies fail to deliver immediately, which could hurt China's political order, as well as its foreign relations. As such, they offer an excellent jumping-off point for future research on the potential roles for productivity measures in other developing countries.

## Impact of COVID

The began a similar albeit slower ascent at the end of the 1980s and early 1990s, and has averaged around 4% during this period, though growing slightly over 8% in 2005, and hitting 9. More than 300 million people have moved from the country to cities in the past 30 years, and an additional 350 million are on the way.
