Darwin's Teaching of Women's Inferiority

Women's inferiority—a fact taken for granted by most scientists in the 1800s—was a major proof of evolution by natural selection. Women and nature are universally devalued by the dominant paradigm and who cannot see what this has wrought? Usually ships within 3 to 4 days. It is a cultural categorization and ranking grounded in a sexual division of labor that may be the single cultural form of greatest significance.

Darwin's Teaching of Women's Inferiority

What we think of as the family is not an eternal institution, any more than exclusively female mothering was inevitable in human evolution. All pages and cover are intact. Top Notch books via United States Hardcover, ISBN 9780385005517 Publisher: Anchor Press, 1979 Used - Good: Anchor Press, 1979.

Patriarchy, Civilization, And The Origins Of Gender

This book should really be essential reading for every student. New York: Crown Publishers, Inc.

Early men and women were equal, say scientists

Darwin's ideas, including his view of women, have had a major impact on society. Given an apparently universal devaluation of women, which

varies in its forms but not in its essence, the question of when and how it was basically otherwise persists. Further, the long tradition of males has been to protect women: only men went to battle, and the common war norms forbade deliberately killing women.
