## Managment in Russia;

The article provides the influence of the allowance for residual deformation on the radius and position of the center of the spherical yield surface in the stress space, used in plastic flow theories. Firstly the mechanism of civil-law protection of the rights of participants in the procurement of goods, works, services for provisioning governmental and municipal needs consists in regulating the ways to protect participants in contractual relationships; secondly, in the emergence of contractual relations, with subjective rights and obligations as its content; thirdly, in implementation of the right to defense by contractual legal entities, that is, the actual use of the right to protection through jurisdictional or non-judicial procedures; fourthly, it is reflected in the stage of law enforcement, the main purpose of which is the development of an enforceable act that ensures the emergence, modification or termination of a contractual relationship; fifthly, in the real legal and actual restoration of violated subjective rights. Role of the ecological audit in information support of the domestic market of eco-textile p.

## Institute for Analytical journal

THE PHYTOPLANKTON TRANSPHORMATION OF SOME TECHNOGENIC LAKES TOLYATTI At present, the problem of restoration and purification of water bodies of anthropogenically transformed territories is becoming more and more urgent. It is established that the radius of the spherical yield surface makes a temporary decrease and then increases as the length of the arc of plastic deformation grows.

## Bulletin of Science and Practice №12 2016

Rasporyazhenie ot 08 noyabrya 2012 g. The percentage of renewable energy in the total electricity production will increase steadily.

## Issue 17 (2015)

Информационный конфликт в РЭБ в общем случае характеризуется свойственной ему иерархической структурой, соответствующей разным уровням добываемой информации, и, соответственно, уровням добывания, сбора и обработки данных

о противоборствующей стороне.
