Ludwig Wittgenstein: a Post

Beyond, or aside from, senseless propositions Wittgenstein identifies another group of statements which cannot carry sense: the nonsensical unsinnig propositions. His nature is good through and through; that is why he doesn't see the need of morals.

Wittgenstein, Ludwig

If we recall the black squares example, the guide must play the role of a regress-stopper, constituting the explanation as to how all possible interpretations and distractions are averted. The initial question suggests a certain perspective on the issue, while the new question is meant to challenge this perspective, to reveal other possibilities — in particular, that mathematical equations may not be descriptions statements, affirmations, declaratives, and so forth, let alone descriptions of some abstract, mind-independent, non-spatiotemporal entities and their relations.

Ludwig Wittgenstein by Ray Monk: 9780140159950

He almost looks as though he were walking on nothing but air.

LUDWIG WITTGENSTEIN analytical philosophy

I said it depended on having a large purpose that one is true to. To the extent that post-modernism is defined by a skepticism of meta-narratives, including those of scientism and rationalism, the Wittgensteinian paradox can seem devastating.

Ludwig Wittgenstein

He went to Skjolden in Norway and lived there for almost a year.

Ludwig Wittgenstein's Theory of Language

He has been something of a cult figure but shunned publicity and even built an isolated hut in Norway to live in complete seclusion. Becoming a doctor, a gardener, a shop assistant—almost anything—was preferable, he thought, to staying in academic life.
