Walter Gropius: Buildings and Projects

His recommendation for Gropius to succeed him led eventually to Gropius's appointment as master of the school in 1919. As the first director of the Bauhaus, Gropius has been credited with focusing the school's methodology of placing equal emphasis on architecture and decorative arts. In the early 1990s, a series of books entitled The Walter Gropius Archive was published covering his entire architectural career.

The studio building housed students and junior masters in 28 studio flats, each measuring 20 m². In 1908, after studying architecture in and for four semesters, Gropius joined the office of the renowned architect and industrial designer, one of the first members of the utilitarian school. The tubular chair, the glass-and-steel office tower, the clean uniformity of contemporary graphic design—so much of what we associate with the word 'modernism'—has roots in a small German art school that existed for only 14 years.
