The Testimony of the Salaf on Imam Abu Hanifah's Excellence in Fiqh

The only scholar he quotes in support of his position is Ibn Hazm al-Zahiri, whose mistake he adopts without mentioning it was denounced by Nawawi. Sikap-sikap ini memberikan pelajaran kepada umat Islam bahwa kebenaran tidak senantiasa berpihak pada, dan dimonopoli oleh, pihak mayoritas. Such an explanation has obvious merit.

Ikhtilaf (differences) among the Madhhabs in Islam

Kenapa kitab ini mengundang decak kagum dari banyak kalangan? Shaykh Said Ramadan al-Buti, who has articulated the orthodox response to the anti-Madhhab trend in his book: Non-Madhhabism: The Greatest Bida Threatening the Islamic Sharia, likes to compare the science of deriving rulings to that of medicine. Dengan kritisisme, Ibn Rusyd tidak bisa dipasung oleh pendapat pendahulu. The ulama of usul recognised as their starting assumption that conflicts between the revealed texts were no more than conflicts of interpretation, and could not reflect inconsistencies in the Lawgiver's message as conveyed by the Prophet pbuh.

The Best of the Madhhabs of Fiqh According to Shaykh Albaani

Nah, jika kita menyepakati hal ini, maka tidak dipaparkannya fikih Syiah dalam Bidayat al-Mujtahid bukan disebabkan eksklusivisme Ibn Rusyd, tetapi lebih disebabkan oleh keterbatasan literatur Syiah di Andalusia. The Sunni ulama rapidly recognised the brilliance of the Four Imams, and after the late third century of Islam we find that hardly any scholars adhered to any other approach. Kufa was, at that time, a centre of learning.
