Baltimore: The Johns Hopkins University Press. This is an engrossing and illuminating portrait of the essential role fabric has played in human history.

9781851704460

In the construction of the 'Coppergate sock', the work began at the toe and worked in circular rows. For thousands of years, along land routes through Central Asia and sea routes along the coasts of East and Southeast Asia, silk was both a major commodity and at times a standard medium of exchange. They are well known because of the enormous research energy that has been devoted to them, but other important elements of cotton's long history are deserving of similar attention.

## The Spinning World: A Global History of Cotton Textiles, 1200

Chen Juanjuan was senior research fellow, Palace Museum, Beijing. It also reopened as a member of the. Printed silks found at Mawangdui correspond to a relief stamp found in the tomb of the Second King of Nan Yue in Guangzhou, datable to before 122 B.

## 9781851704460: The Illustrated History of Textiles
