There are several Internet sites with name lists or indexes. Much of the parish is farmland or woodland, and most of the parishioners are concentrated in the three larger villages, with several also resident in outlying areas of the parish. Outside, it stands proud of the wall under a brick gable.

W H Godfrey: St Mary, Sidlesham, SNQ 6 Feb 1937 pp151-52 Plan Measured plan by W H Godfrey in VCH 4 p214 My thanks to Joanna Chivers, Director of Music of the church, who has updated this entry and has also drawn attention to the organ, which is by G E Holditch and comes from the chapel of St Luke at the Radcliffe Infirmary, Oxford. The composite east window is set in a recess inside, which is too narrow to have been the chancel arch and has a brick head. The church as it was completed in the C13 appears to have had a short life for it was the subject of alterations from the C14, the date of the opening of the east window in the south transept.
