Chapter 23. Modifying Access, Barriers, and Opportunities

It may be necessary to designate accessible parking along the street when parking lots have severe grades or parking garages have low vertical clearances. This requirement applies to seating generally, as well as luxury boxes, club boxes, suites, and other types of boxes.

ADA Standards and the International Building Code

This guide addresses most questions about how to host an accessible temporary event. Increased costs and design impacts associated with greater access to work areas or individual work stations were generally cited as a concern. Requirements for check-out aisles have been revised to clarify access to check-out aisles serving different functions 227.

ADA Standards and the International Building Code

Their travelling companions should also be permitted to sit beside them.

Chapter 23. Modifying Access, Barriers, and Opportunities

In that sense, it can be characterized as a lower standard. To ensure that buildings and facilities are accessible to and usable by people with disabilities, the ADA establishes accessibility requirements for State and local government facilities under title II and places of public accommodation and commercial facilities under title III. This has been revised in the final rule as applying where such elements are provided without regard to inaccessible rooms and compartments.
