**Past Forward: History of Indus Valley Civilization**

Not a single evidence has been found.

**What did the river valley civilizations**

**have in common?**

Present day Pakistan and Northwest India is where Indus Valley was once located.

## indus Valley Civilization Vs Chinese Civilization Comparison

Nowadays, they are regarded as two of the most advanced ancient civilization in the world and the cradle of modern human civilizations. It flourished in the basins of the , which flows through the length of Pakistan, and along a system of perennial, mostly -fed, rivers that once coursed in the vicinity of the seasonal in northwest India and eastern Pakistan. By Post-urban times the centre of settlement had shifted to the Punjab, Haryana, northern Rajasthan, and western Uttar Pradesh, as well as Gujarat.

## The Ancient Indus Valley Civilization

Such a seismic event might have caused the rivers to change course altering the lives of the people living in the Indus Valley. There was an abandonment, or severe depopulation, of the cities and a number of important settlements including Kot Diji, Balakot, Allahdino in Pakistan , Kalibangan, Ropar, Surkotada, Dholavira, Desalpur, and Lothal in India.
