### Isotype Revisited

I would tell you to go check it out for yourself, but this dude does not need any more traffic or attention than he is already getting.

### Homo sapiens

The community that they claimed would not support frozen yogurt above the corner deli showed out! For many years, the ONE and ONLY friend I had was a negative kind of guy who NEVER wanted to approach women. Humans are the only hominoids in which the female is fertile year round and in which no special signals of fertility are produced by the body such as genital swelling or overt changes in proceptivity during estrus. The early bipeds eventually evolved into the australopithecines and still later into the genus Homo.
