What are some keys to school effectiveness in your opinion? Another issue with school effectiveness research is that findings are predominantly based on research conducted in elementary schools or unique school settings in the inner city. In other words, teachers who are expected to teach at high levels of effectiveness are able to reach the level of expectations, particularly when teacher evaluations and teacher professional development is geared toward improving instructional quality. This article provides a summary of a series of articles about the effectiveness of CBPHC in improving MNCH and offers recommendations from an Expert Panel for strengthening CBPHC that were formulated in 2008 and have been updated on the basis of more recent evidence.

What Factors Make a School Effective?
