What could possibly go wrong, right Babymouse? I loved the pictures and illustrations. And what's this about a school dance? Babymouse only has one thing on her mind -- PRESENTS!!! I felt at a loss while reading this graphic novel. Will she be the star of the school concert, or is her musical career all washed up before it's even started? I find the books to be very hit or miss though, and this definitely is not one of my favorites.
