## Young lunar mare basalts in the Chang'e

He had hypothesized that at one time there was a vast lake that covered the countries that surrounded it; and had only become connected to the ocean to the west when a passage had opened up sometime in its history. An experimental approach to understanding older craters would be even more complicated at least on the Moon the optical effects of space weathering.

## Distribution of averages of Ramanujan sums

. Size-frequency distribution of crater populations in equilibrium on the Moon.

## Eratosthenes

Cratering records in the inner solar system in relation to the lunar reference system.
