Unfortunately the hypothesis has not been rejected outright but still lurks in the mind to distort the picture of what actually happened when the emigrants from Germany set foot in Britain and began.

The Medieval Foundations of England

. To be certain, jurists, theologians, philosophers and polemicists had been debating the locus of supreme political authority throughout the course of thirteenth century, with some making the case for imperial supremacy and others arguing for papal supremacy. Louis conquered almost all of south-eastern England though not Dover Castle , but retreated in 1217 after defeats in the Battle of Sandwich and in the streets of Lincoln.

Medieval Lands powered by Google. In later times that part of the country became a centre for the wool trade and a masonry pack horse bridge was built across the river we now know on the old Roman foundations. It is not perhaps surprising in a country whose geographical position permitted easy contact with the main centres of civilization and yet prevented foreign domination from radically altering its indigenous growth.
