

# Vascular medicine - a textbook of vascular biology and diseases

## Little, Brown - Vascular Medicine

Description: -

-  
Church architecture -- England.  
Cathedrals -- England -- Ely.  
Ely Cathedral.  
Sperrin Lakeland Health and Social Care Trust.  
Interpreters for the deaf.  
American Sign Language  
Germany -- Church history -- 843-1517 -- Sources.  
Bishops -- Germany -- Mainz (Rhineland-Palatinate)  
Vascular Diseases.  
Blood-vessels -- Pathophysiology.  
Blood-vessels -- Physiology.  
Blood-vessels -- Diseases. Vascular medicine - a textbook of vascular biology and diseases  
-Vascular medicine - a textbook of vascular biology and diseases  
Notes: Includes bibliographical references and index.  
This edition was published in 1992

### Table of Contents: Vascular medicine :

This book describes the fundamental biology and mechanics of the vasculature and examines how this knowledge has underpinned the development of new clinical modalities, including endovascular treatment and vascularization of reconstructed tissue for regenerative medicine. New chapters have been added and previous chapters have been updated to cover recent developments in vascular and endovascular surgery. This book covers a wide range of topics and provides an overview of the discipline of vascular biomedicine without aiming at in-depth reviews, but rather offering up-to-date knowledge organized in concise and structured chapters, with key points and pertinent references.

### ESC Textbook of Vascular Biology

Vascular biology forms the basic armamentarium to address the underlying mechanisms. The ESC Textbook of Vascular Biology is a rich and clearly laid-out guide by leading European scientists providing comprehensive information on vascular physiology, disease, and research. The ESC Textbook of Vascular Biology discusses these new developments and recent breakthroughs in the field, while also covering the major changes in the diagnosis, prevention, and treatment of atherosclerosis that have occurred in recent years.

### Table of Contents: Vascular medicine :

Access to the complete content on Oxford Medicine Online requires a subscription or purchase.

### Vascular Medicine

Her research focuses on vascular biology of cardiovascular disease and in particular: 1 molecular mechanisms, redox signaling and vascular biology of hypertension; 2 cardiovascular toxicity of anti-cancer drugs VEGF inhibitors , 3 small vessel disease and complications of hypertension, and 4 vascular biology of cations and TRPM ion channels. Vascular biomedicine is a rapidly growing field as new molecular mechanisms of vascular health and disease are unraveled.

### ESC Textbook of Vascular Biology

A range of methodologies such as molecular imaging platforms and signalling analysis, along with tumour models are collated here.
