### Geometry Curriculum

Besides, the teachers are super clear and the exercises very useful.

### High School Geometry Curriculum

I scored a perfect 150 on my PERT and because of it I got to take the Accuplacer and scored well on that too which placed me in Pre Calc and Trig! My ALEKS test went really well! Continuing with the Intermediate Algebra program during the semester is absolutely the reason why I was able to sustain a B grade, and I actually have my final this afternoon and I am confident I will do well. The program was immensely helpful! How can we use multiple representations to make sense of the world? I also like the practice questions which prepare you for the test of each lesson. It also helped that your course guide exactly followed the flow of the class going from chapter to chapter so I could watch my class lecture online course , attempt some of those problems.

### Geometry curriculum

The units will also include any and all cards needed to make the lessons successful! After not using math in over 7 years after using the MathHelp lessons I placed into calc which was a higher course then I needed! I never went into college.

### High School Geometry Curriculum

I took a practice Accuplacer test and realized that I did not remember hardly any of my high school math so I took the Accuplacer College Level Math prep course. Math is fun curriculum for kindergarten. Topics are broken down into a specific area; ie: Quadratic Equations.
