But to a mature-minded audience, this is a must-read for Kane fans, and for lovers of horror-drama. Luckily, the minions of the Dark Gods are not as lethal as the ones in Lovecraftian Lore, but they can kill you just as ea.

No quarantine protocols are evident, and the unqualified astronauts perform crude medical procedures on the alien that clearly would never be allowed in a real NASA mission. There would have been a military coup a long time ago or we would have been at war.
