He is an exciting event entertainer that draws from a vast career to empower, inspire, and deliver an unforgettable experience. Trying to avoid this reality will only lead to desperation and. To be sure, this book goes far deeper than the usual article on how Bill Gates dropped out of college, so apparently credentials don't matter anymore, but at the same time I could imagine a non-daring, non-family-wealthy, non-extraverted person having some difficulty putting all the self-branding, alum networking, just-be-a-consultant to get your foot in the door advice readily to work.

You Can Do Anything, but Not Everything

Although you may think this book is written for the teenager thinking about their educational path or a 20-something looking for the right path forward, it applies no matter your age.

Can Do Anything You Put Your Mind

This is a battle plan, make no mistake about it.

You Can Do Anything, but Not Everything

In a tech-dominated world, the most needed degrees are the most surprising: the liberal arts. I stuck with my studies and eventually passed the exams. They are overruling the democratic process, throwing out democratically passed laws.

A humanities degree, combined with technical knowledge gathered as needed, may put you ahead of those who concentrate only on job-specific skills. They need to follow their own paths, and they can do amazing things with those history and sociology degrees. Packed with relatable stories and role models, it not only inspires you with stories about what liberal arts grads have done with their educations, but also gives you a clear map to find your own path in the world.
